## only the best for you

Professional installation teams are used to carry out the installation of your turf.

We source only the best quality soil, the best quality machinery and operators.

We use pre-plant fertiliser and roll your lawn to ensure that it has the best chance of thriving!!

### DID YOU KNOW?

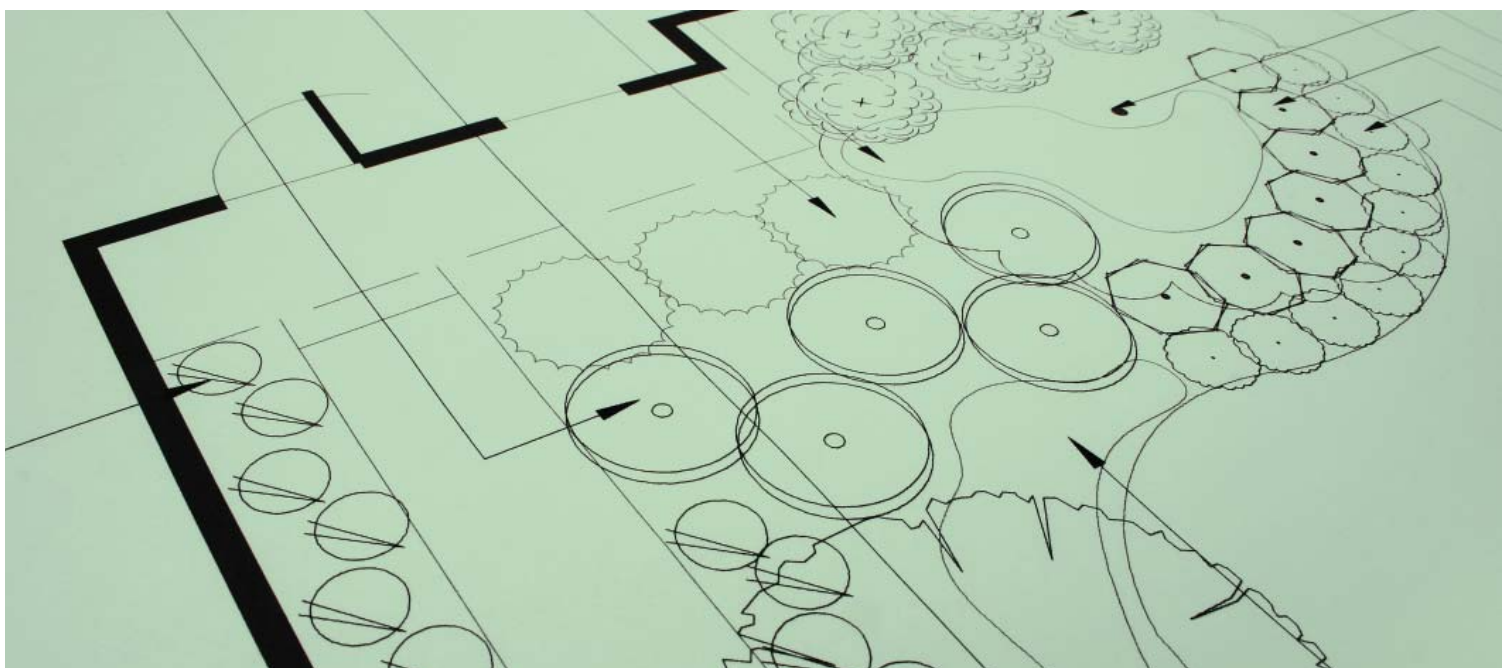

we employ our own install teams to ensure that your job is done correctly and to the highest possible standard. You can rest assured that our efficiency and professionalism will give you the best result

let our **specialist representatives** give you expert advice in choosing the correct product and design to complement your area and lifestyle needs

# edging, turf and garden plant outs

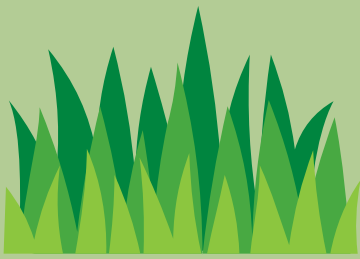

Garden edgings will define and complement your landscaping project. We offer a selection of timber and concrete edging to suit your individual requirements. We can also source and plant out your garden according to your landscaping plans.

## mulch, bark and gravel installation

Mulching is one way to aid in water retention and weed control and enhance your garden's finished appeal. A variety of mixes and textures are available for your individual needs. We also supply an extensive range of decorative gravel to complement your landscaping.

*green solutions*

commitment to satisfaction  
products and services

**Legend:** turfgrass, used on major stadium surfaces in Australia is a solid choice for Queensland. Legend couch has a fine texture. It displays a dark green colour with rapid recovery.

**Sir Walter:** is also a top choice for Queensland. It survives on little water once established and is very shade tolerant. It is low maintenance and a rich green colour.

**CT2 couch:** has a fine to medium texture and is a mid to dark green colour. It has a low growth profile and has good wear tolerance. It has good winter colour retention.

**Wintergreen couch:** has a fine to medium texture with improved dark green colour pigmentation. It is suitable for residential lawns, commercial sites, and parklands.
